Choose the 1st completely multidisciplinary Master of Public Health in France delivered in English

To take part in the new generation of decision-makers in public health on a path to unique career opportunities, MPH graduates can expect a wide range of career opportunities, both nationally and internationally. They develop their careers in areas as broad as government health departments, research units, universities, public health services, NGOs, international organisations or the private sector.

The Master of Public Health is accredited by the French Ministry of Higher Education, Research and Innovation and is accredited by the Agency for Public Health Education Accreditation (1st specific accreditation system for education in public health at the European level).

Enjoy daily life in Paris

The MPH is offered in Paris, a city overflowing with cultural activities, a typical Parisian lifestyle, all within a unique cosmopolitan atmosphere.

«Teachers paid individual attention to each and every student. It allowed students to pose questions, share experiences and most importantly feel connected. (...) EHESP has a great reputation in Europe as a pioneering institute in public health, so it was not difficult to establish a career as an alumni.»
